PROFILE SUMMARY

As a Computer Applications graduate, I am a motivated IT professional with foundational knowledge in Java, HTML, CSS, JavaScript, SQL, and Manual Testing. I am eager to contribute to live projects, applying my skills to develop, test, and maintain high-quality, user-friendly web applications. With a strong problem-solving mindset and a commitment to continuous learning, I strive to deliver value to the organization

EDUCATION

E.G.S Pillay Engineering College (Autonomous), Nagapattinam	2023 - 2025
<i>Master of Computer Applications</i>	<i>CGPA: 8.8</i>
A.V.C Arts and Science College (Autonomous), Mayiladuthurai	2020 - 2023
<i>Bachelor of Computer Applications</i>	<i>CGPA: 8.5</i>

PROJECT

Smart Job Portal System

Developed a web-based Smart Job Portal System that enables job seekers to search and apply for jobs while allowing employers to post and manage job listings. Implemented secure user authentication, role-based access, and database constraints to prevent duplicate job applications. Technologies: Java, Servlets, JSP, HTML, CSS, JavaScript, MySQL.

Secure Session Management System

Designed a Secure Session Management System with user authentication, session tracking, and role-based access control. Implemented session timeout, login history, and secure database integration to enhance application security and user management. Technologies: Java, Servlets, JSP, HTML, CSS, JavaScript, MySQL.

AndroMal – Android Malware Detection System

I developed a machine learning-based system to detect malicious Android applications using Python. The system extracts app features with Androguard and classifies them using CatBoost. To ensure data integrity and transparency, detection results are secured on a Blockchain, providing immutable records. I also built a web interface using Flask, MySQL, and Bootstrap for real-time malware scanning and reporting, enhancing application security and overall trustworthiness.

TECHNICAL SKILLS

- **Programming Language** : Java, Python(Basics)
- **Web Development** : HTML5, CSS3, JavaScript
- **Database Management** : SQL
- **Testing & QA** : Manual Testing(Basics)
- **Development Tools** : Eclipse, VS Code

CERTIFICATION

- Java -- Qspiders
- SQL -- Qspiders
- Python -- AI for Techies

LANGUAGES

- Tamil
- English

NON-TECHNICAL SKILLS

- TypeWritting (Senior Level)
- Excel
